

SECRETS OF THE MAGI

The Wisdom of the Magi

PRINCIPLE #1

Not only do the heavens declare the glory of God on a daily basis, but they speak and display knowledge at night.

A disciple of Christ masters the revelation of life. The Magi, also known as the wise men, understood the science of the stars. Most people learned about the Magi (wise men) through the story of the birth of Christ. However, the story of Christmas is presented with a number of falsehoods. After the birth of Jesus, the Magi came from the East to Jerusalem to search for the newborn King of the Jews. The story of the magi in the New Testament, as told by the Jews who converted to Christianity, is spurned from the elements in the Old Testament which are used to prove that Jesus was the Messiah of the world. The Old Testament predicted that the non-Jewish nations of the world would come to adore the Jewish Messiah and would bring international treasures.

The 12 constellations are based upon the magnitude of the stars and their degrees of brightness. The names assigned to

INTO THE DEPTHS

these constellations are the Latin words for the symbols displayed in the stars. We should not worship the sun and the stars. The Word of God says, “*Thou shalt have no other God’s before me.*” (Exodus 20:3) This is one of the reasons that the Church is skeptical when it comes to astrology. Astrology was considered demonic. However, astrology is not the worship of the stars; astrology is the study of the stars. Everything has a positive and a negative side. Fire is a very powerful element. It is good for cooking and heating our homes. However, if handled incorrectly, fire also has the ability to destroy. In the same way, the study of the stars is very beneficial in understanding the move of God in the earth, but you have to have the proper training to fully understand the signs and their meaning.

Psalms 19 says, “*The heavens declare the glory of God and a further mention of His handiworks. Day after day they pour forth speech; night after night they display knowledge.*” Not do the heavens declare the glory of God on a daily basis, but they speak and display knowledge at night. This is a clue that we are to study the stars to see what they are saying. Everything speaks, but you have to use your prophetic ear to hear. What you behold you become. If you concentrate on something long enough it will make a deposit in your mind.

Dreams

PRINCIPLE #2

God is the God of details.

Studying the stars is important because the symbols of the stars will show up in your dreams. We usually think of our dreams in terms of a narrative story, and fail to recognize significant sym-

bols that God may place in our dreams. Become a forensic scientist when it comes to analyzing your dreams - details, details, details. Details unfold the mystery behind your dreams. Don't just remember the story, remember the details. For example, remember the shoe that was sitting on the floor, or the color of the dog running through the door. Study the colors that were present in your dream. When you become a forensic dream scientist you will be able to interpret what God is trying to tell you through your dreams. God is a God of details. Every dream has two you's in it. There is the you that is watching the dream as it happens, and there is the you that is the actor in the dream. You are in the dream while you are watching the dream. Learn to take control of your dreams and pay attention to every detail.

The Signs

PRINCIPLE #3

A sign is usually smaller than the entity to which it points.

“There is no speech or language where their voice is not heard. Their voice goes out into all the earth, their words to the ends of the world.” (Psalms 19:3-4)

God talks in symbols. Night after night the stars communicate their knowledge. God reveals His message in the stars. Therefore, do not be afraid to study them. God has given His message to everybody. All peoples of the earth can receive this word. *“And God said, let there be lights in the firmament of heaven to divide the day from the night; and let them be for signs, and for seasons, and for days and years.” (Genesis 1:14)* A sign is something that points to something outside of itself. A sign is usually smaller than the entity to which it points.

Pay close attention to your astrological sign because it is going to tell you why you do some of the things you do, why you repeat certain things, why you have developed certain habits. God reveals hidden truths about you through the stars. When you are dealing with your astrological sign, you will find that certain stars and planets are supposed to be in certain locations, meaning certain things are supposed to be happening in your life. People painted all of these signs in different ways. The magi saw the star. God did not chastise them for following the star. They used the star to guide them to find Jesus.
